

# Lumenera Aids CooperSurgical in Women's Health Care Worldwide

## CooperSurgical is a Leading Provider of Women's Health Care Technology

Established in 1990, CooperSurgical, Inc. has grown a robust portfolio of products and brands that define and advance women's health care. CooperSurgical products are present in physician offices, hospitals and assisted reproductive technology clinics through a network of direct, indirect and distributor sales teams.

## Lumenera Chosen for CerviPATH™ Patient Management System

Over the past four years, Lumenera has developed a strong partnership with Trumbull-based CooperSurgical. Drawing on Lumenera's wide range of USB 2.0 cameras and unique customization capabilities, CooperSurgical has developed advanced technology-based products dedicated to women's health care worldwide.

Lumenera is proud to have integrated with CooperSurgical's CerviPATH™ Patient Management System. CerviPATH provides the highest technological sophistication and straightforward digital documentation for patient information and image management.

## Lumenera's OEM Products Selected for Outstanding Picture Quality

Lumenera's 1.3 and 3 megapixel digital cameras are advanced, yet easy-to-use. Documentation software has helped the CerviPATH Patient Management System meet the challenges of today's practice environment. This imaging solution allows the clinician to precisely document and track lesion progression or regression for optimal clinical management.

CooperSurgical selected Lumenera's OEM products for their outstanding picture quality, unique mechanicals and affordable prices.

## Highlights

- Lumenera has developed a strong partnership with Trumbull-based CooperSurgical.
- CooperSurgical offers robust portfolio of products and brands that define and advance women's health care.
- Lumenera's application engineering group nicely complimented CooperSurgical's expertise in instrument integrating cameras suited to diagnostic requirements while maintaining competitive price points.
- CooperSurgical selected Lumenera's OEM products for their outstanding picture quality, unique mechanicals and affordable prices.

*“As a company, Lumenera strives to provide world-class OEM imaging products and integration services.”* stated Larry Whelan, Director of Scientific Business Development at Lumenera. *“Partnering with CooperSurgical allows us to gain a better understanding of the market requirements, and offers us the opportunity to help them grow their business through timely development at competitive pricing.”*

Additionally, Lumenera’s application engineering group nicely complimented CooperSurgical’s expertise in instrument integration, making it possible to integrate the cameras best suited to diagnostic requirements while maintaining competitive price points.

### About CooperSurgical

CooperSurgical is a leading company dedicated to providing medical devices and procedure solutions that improve health care delivery to women regardless of clinical setting. The company is fostering that position through expansion of its core businesses and introduction of advanced technology-based products which aid clinicians in the management and treatment of commonly seen conditions.

CooperSurgical products fall into three main segments based on the point of health care delivery: Hospital, Office and Clinic. Customers include health care professionals and institutions providing care to and for women.

The company is committed to continued expansion of its core business through internal development programs and acquisition strategies. Since its inception in 1990, CooperSurgical has steadily grown its market presence and distribution system by developing and purchasing products, and acquiring companies that complement its business focus. The company now has an established customer base serving well over 65% of women’s health care providers with sales approaching \$200 million.

CooperSurgical’s focus is on women’s health. Their mission is to advance the well being of women by offering health care solutions based on sound clinical results.
