**Lumenera Corporation honored by Vision Systems Design 2018 Innovators Awards Program**

**Boston, MA – April 11, 2018** – On April 10, Lumenera Corporation, a leading manufacturer and developer of high performance digital cameras and custom imaging solutions was presented with a gold-level award in the Cameras - visible Category at the Fourth Annual Vision Systems Design Innovators Awards presentation, held during The Vision Show in Boston, MA. Their Lumenera LtX45R Camera Series was recognized by a panel of esteemed experts from system integrator and end-user companies.

"We are delighted to be recognized by Vision Systems Design for our contribution to the imaging industry with our LtX45R Camera Series," said Huw Leahy, President of Lumenera Corporation. "Our line of high performance global shutter CMOS cameras is available in 3, 5, 9, and 12 megapixel versions to meet the requirements of a wide range of imaging applications."

Alan Bergstein, publisher of Vision Systems Design (<http://www.vision-systems.com>) said "This prestigious program allows Vision Systems Design to celebrate and recognize the most innovative products and services in the vision and image processing industry. Our 2018 Honorees are an outstanding example of companies who are making an impact in the industry."

The Innovators Awards are judged based on the following criteria:

- Originality
- Innovation
- Impact on Designers, Systems Integrators, End Users
- Fulfilling a need in the market that hasn't been addressed
- Leveraging a novel technology

The 2018 Vision Systems Design Innovators Awards Honorees are featured in the June Issue of Vision Systems Design magazine as well as on <http://www.vision-systems.com>. Companies were recognized in the following categories:

- Vision systems
- Cameras - visible
- Cameras – non-visible
- Cameras – 3D
- Cameras – Specialty (High-speed, scientific)
- Image sensors
- Lighting, lenses, and optics
- Connectivity: Cables, connectors, extenders, interfaces, etc.
- Software
- Frame grabbers and boards
- Embedded vision: Cameras, computers, boards, processors, development kit, components
- R&D / start-up category

**About Vision Systems Design:** Published since 1996, Vision Systems Design is a global resource for engineers, engineering managers and systems integrators that provides comprehensive global coverage of vision systems technologies, applications, and markets. Vision Systems Design's magazine, website (<http://www.vision-systems.com>), email newsletters and webcasts report on and analyze the latest technology and business developments and trends in the worldwide machine vision and image processing industry.

**About The Vision Systems Design 2018 Innovators Awards program:** The Vision Systems Design 2018 Innovators Awards program reviewed and recognized the most innovative products and services in the vision and image processing industry. Honorees were announced at Automate 2018 held in Boston, MA, USA. Criteria used in the Innovators Awards ranking included: originality, innovation; impact on designers, systems integrators and end-users; fulfilling a need in the market that hasn't been addressed, leveraging a novel technology, and increasing productivity.

**About Lumenera:** Lumenera Corporation, a division of Roper Technologies Inc., is headquartered in Ottawa, Canada, and is a leading developer and manufacturer of high performance digital cameras and custom imaging solutions. Lumenera imaging solutions provide a unique combination of speed, resolution, and sensitivity to meet the most demanding digital imaging requirements, and are used worldwide in a wide range of industrial, scientific, security, and astro applications. For additional information about Lumenera, please visit [www.lumenera.com](http://www.lumenera.com) or call 613-736-4077.
