Lm11059
High Resolution 10.7 Megapixel
USB 2.0 Traffic, Flat Panel Inspection and High Resolution Documentation Camera

High Resolution CCD Sensor with Global Shutter
Lumenera’s progressive scan Lm11059 digital camera is built for rugged 24/7 use. A proven high resolution 35mm large format CCD sensor with a fully global electronic shutter captures excellent quality, high-speed images with zero blur. Completely integrated Canon EF lens controller offers increased longevity and durability (no external cabling is required). The industrial-grade Lm11059 is ideally suited for traffic monitoring, automated License Plate Recognition (LPR), flat panel and solar panel inspection, as well as high resolution documentation and ophthalmic imaging. The scientific grade option (-SCI) is built under a strictly controlled environment to ensure no visible defects are found in the optical path. This is a key requirement for applications using collimated light sources.

High Quality Images for Difficult Lighting Environments
The high quality CCD sensor provides both monochrome and vivid color images for the most demanding environments. Full streaming uncompressed video and still image captures are easily controlled through a set of stable and reliable USB device drivers. Region of interest and binning modes allow the camera to run at faster frame rates while only providing the image data you need. Image capture synchronization is achievable using either a hardware or software trigger and is complemented by 32 MB of on board memory for frame buffering to ensure image delivery.

Plug n’ Play with No Framegrabber
The compact, light weight design of the Lm11059, measuring 76.2 x 76.2 x 82.6 mm, ensures easy integration into tight spaces and enclosures. The fully locking USB 2.0 cabling, power connector and digital interface ensure a simple plug-and-play installation. No framegrabber is required. Simplified I/O cabling is provided through a locking Hirose connector supporting 2 output, 2 input and 2 software configurable I/O ports.

Maximize Camera Performance Within Your Own Application
The Lumenera Camera SDK provides a full suite of features and functions that allow you to maximize the camera’s performance within your own vision application. The SDK is compatible with all of our USB and GigE-based cameras. Microsoft DirectX/DirectShow, Windows API and .NET API interfaces are provided, allowing you the choice of application development environments from C/C++ to VB.NET or C#.NET. Full inline IntelliSense autocompletion and documentation is provided with the .NET API interface and is accompanied by a full API manual describing all camera functions and properties.

Superior Technical Assistance Center
All Lumenera cameras are supported by an experienced team of technical support and imaging experts. We understand your imaging needs and are here to help you get the most out of your camera.
Sensor Specifications

**Image Sensor**
- Kodak KAI-11002

**Optical Format**
- 35 mm

**Active Area**
- 37.25 x 25.70 mm

**Pixel Size**
- 9.0 x 9.0 µm

**Resolution**
- 4008 x 2672 pixels

**Region of Interest Control**
- Any multiple of 8 x 8 pixels, 8 x 8 pixels minimum

Camera Specifications

**Frame Rate**
- 4.3 fps at full resolution
- 13.7 fps at 640 x 480 (with ROI)

**Bit Depth**
- 8 or 14-bit

**Binning Modes**
- 2 x 2, 4 x 4 and 8 x 8

**Exposure Control**
- Manual and automatic control

**Exposure Range**
- 86 µs to 198.8 ms (video)
- 53 µs to 134.2 s (snapshot)

**Gain Control**
- Manual and automatic control

**Gain Range**
- 1 to 61.7x

**White Balance**
- Manual and automatic control

**Trigger Modes**
- Hardware and software triggerable

Camera Characteristics

**Sensitivity**
- Excellent

**Dynamic Range**
- 66 dB

**Full Well Capacity**
- 60,000 e-

**Quantum Efficiency**
- 50% (mono-peak), 42% (color-peak)

**Read Noise**
- 30 e-

**Dark Current Noise**
- <50 mV/s at 20 ºC

Mechanical Specifications

**Data Interface**
- USB 2.0, locking connector

**General Purpose I/O**
- Locking Hirose

**Lens Mount**
- Canon EF mount

**Dimensions (HxWxD)**
- 3.0 x 3.0 x 3.25 inch

**Mass**
- ~600 g

**Operating Temperature**
- 0 to 50 ºC

**Storage Temperature**
- -30 to 70 ºC

**Operating Humidity**
- 5 to 95 %, non-condensing

**Shock / Vibration**
- 50 g shock, 5 g (2 to 200 Hz) vibration

**Onboard Memory**
- Camera has onboard non-volatile memory storage

Camera Software

- Windows 10, Windows 8.1, Windows 7; Linux
- 32 and 64-bit operating systems

Power and Emissions

**Power Consumption**
- ~6 W (average)

**Power Requirement**
- 12 V DC

Emissions Compliances

- FCC Class B, CE Certified

Hazardous Materials

- RoHS, WEEE Compliant

Warranty

- Four (4) year

System Requirements

- Pentium 4, 1.3 GHz or higher
- 512 MB RAM
- 60 MB hard drive free space or more
- USB 2.0 Port
- Windows 10, 8.1, 7; Linux

Ordering Options

- Lm11059M: 10.7 MP Monochrome Camera (Enclosed)
- Lm11059C: 10.7 MP Color Camera (Enclosed)
- LuSDK: Software Developer’s Kit (Web Download)

Camera Includes

- La21224L: Locking 12 V DC power supply
- Lu803: 3m USB 2.0 A to B cable

Customization Options

- -SCI: Scientific grade
- -WOIR: Plain glass within lens mount
- -WIR: With IR cut filter within lens mount
- -WOG: Without any glass within lens mount
- -WOCG: Without sensor cover glass
- -WOML: Without sensor pixel micro lenses
- -C1: Higher quality CCD sensor
- -C0: Highest quality CCD sensor
