Re: End of Life (EOL) Notice– LuSDK with Accessories
Product News #09-Ind-02

Product	Status
<u>LuSDK</u> (with lens and USB adaptor card accessories)	EOL – March 16, 2009
<u>LuSDK-NA</u> without accessories	Continued Availability

Lumenera is providing partners with notice regarding the immediate End of Life (EOL) for the LuSDK that included the lens and USB adaptor card accessories. Please note that Lumenera will continue to offer the LuSDK-NA featuring the identical Software Development Kit, but without the added lens and USB adaptor card.

The LuSDK has now been removed from the latest edition of our price list dated March 2009. No functionality or control will be lost in switching to the LuSDK-NA. If desired, the 16mm lens can still be purchased using part number Lu916M. Please contact your Lumenera Business Development Representative to discuss a variety of available cost-effective lens options.

Thank you for your understanding in this product EOL. We regret any inconvenience that discontinuing this product may cause your organization. Our support and sales staff are available to assist you with any questions or concerns.

Questions or Concerns?

Should you have any questions or concerns, contact your Lumenera Business Development Representative, or Tenaha Moxon, Senior Sales Coordinator, at tenaha.moxon@lumenera.com / +1-613-736-4077 x 180.
